

POSITION TITLE: Science and Innovation Intern – DDW, The Color House

ABOUT THE INTERNSHIP:

DDW is looking for a science and innovation intern for the summer of 2019 and will offer a solid education to students of all levels. Our lab is working on exciting new developments in natural colors for the food and beverage industry. Your role would be to work in our Application and Innovation teams and lead R&D projects in the field of natural coloring. If you like working in a fast-paced, creative environment and would like to be a part of our team this summer, please send your resume and cover letter to the contact details provided below.

ABOUT DDW, THE COLOR HOUSE:

Founded in 1865, DDW, “The Color House” is one of the world’s largest providers of caramel colors, burnt sugars and other natural color solutions to the largest food and beverage companies in the world. We have 9 manufacturing plants and 2 partnerships on 5 continents with operations located in the USA, Brazil, United Kingdom, Ireland, Swaziland, Malaysia and China

DDW’s 2019 vision requires rapid expansion of innovative products and processes, additional natural colors and color blends, organic colors, and many other solutions to match the food trends of today and tomorrow. With just 195 associates, every associate is critical to achieve this vision, and every associate participates in developing plans and making decisions. In business for nearly 150 years, we provide stability and growth opportunities to our diverse associates around the world as well as a family friendly culture that encourages a strong sense of community and making a positive difference in each location where we operate.

What you will learn:

- This internship is all about natural colors and their importance throughout the food industry.
- The candidate will collaborate on and lead R&D projects in the lab and pilot plant.
- These projects can consist of natural color innovation and natural color application for a wide variety of market categories.
- The work is usually tailored to the individual based on experience and interests to maximize the project’s impact.

What we require:

- Candidate must be:
 - Currently enrolled in a Food Science related undergraduate or graduate program.
 - In good academic standing with a minimum 3.0 GPA
 - A demonstrated learner – quick to absorb new processes and knowledge
- Candidate must have:
 - Chemistry, biology, or related lab experience
 - Strong communication skills – both oral and written

ADDITIONAL DETAILS:

- The Science and Innovation internship typically begins June 1, 2019 and ends on July 31, 2019 but flexibility can be discussed.
- The position is located in our Global Support Center in Louisville, Kentucky.
- Please send resume to bryan.aviles@ddwcolor.com by December 1, 2018.
- Candidates will be notified if they are selected for further screening.
- Candidate must be a U.S. Citizen or have a Green Card authorizing you to work in the U.S.
- We offer competitive compensations commensurate with experience and education.
- For more information, please contact Bryan Aviles at bryan.aviles@ddwcolor.com.
